Attorney's Docket No.: 09765-020001

REMARKS

On May 10, 16 and 17, the examiner and the undersigned conducted telephonic interviews. Discussed were the independent claims in view of the Iyengar patent US 6,360,205(B1), previously applied to the claims. The examiner considered that clarification of the claims would distinguish the claims over Iyengar and the other cited and applied references.
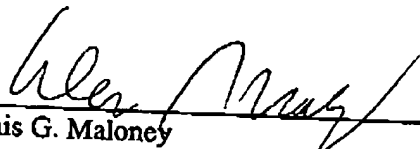

Applicant and the examiner agreed that amendment of all of the independent claims to include: "<u>sending a query from a remote system to a server system that processes the query, to provide information comprising data and executable code back to the remote system</u>" or the equivalent, clarified the claims.

Applicant did not and does not concede that the claims, as previously presented, were anticipated or obvious over Iyengar or the cited references and reserves its right to file a continuation on the canceled subject matter.

The examiner also requested that "executable" be amended to recite "executable code," which applicant has done by the above amendment. Applicant also corrected minor antecedent basis errors in the claims.

No fee is believed due. If a fee is due, please apply that fee and any other charges or credits to deposit account 06-1050.

Respectfully submitted,

Date: 5/17/05
